

FOOT & ANKLE DEFORMITY CORRECTION COURSE

21st Aug. to 24th Aug. 2023

Venue - AIIMS, Nagpur

About AIIMS

Greetings from Steps 2 walk India & team IFASCON 2023 Nagpur!

AIIMS NAGPUR, it is wonderful state of art campus with extremely deliteful medical and surgical institute.

The campus of All India Institute of Medical Sciences, Nagpur is located in the Special Economic Zone, MIHAN of the vibrant orange city of Nagpur. Fostering a culture of excellent medical education, clinical care & biomedical research, this 150-acre campus is one of the largest among colleges of Central India. The planning & skillful architecture aims to provide the infrastructure to integrate the best possible modern healthcare services and medical education under one roof.

There are five fully furnished air-conditioned lecture halls dedicated to conducting courses. They are equipped with modern teaching tools like an LCD projectors for presentations and wireless microphone system. Operative rooms are designed with all modern facilities for better teaching and clinical teaching with use of simulators and live demonstration is perfect for honing the practical skills of delegates.

Past President of the FLAMECiPP - Latin American Federation of Medicine and Surgery of the Foot and Leg
Past President of the Brazilian Foot and Ankle Society

Steps 2 Walk

Steps2Walk was developed and chartered as a non profit (501)(c)(3) corporation by Dr. Mark Myerson in 2000. He was responding to the ongoing need for education and training of international foot and ankle surgeons who had little access to ongoing and advanced training in the specialty. Simultaneously, although Dr. Myerson and his colleagues participated in various humanitarian programs abroad by performing surgery and teaching, Dr. Myerson recognized that this model was not sustainable since at best, they could treat only 25 patients per program visit. However, by training hundreds of surgeons they could ultimately help many thousand.

Every year Steps2Walk conducts dozens of programs around the world to help disabled patients regain their mobility and improve their quality of life.

Recruiting the leading specialists in the field of orthopedic foot and ankle surgery to volunteer their time and talent, they are able to conduct the utmost difficult surgeries and educate the next generation of local in-country surgeons on how to perform future surgeries by themselves.

The need for both the care of children and adults with disabling foot and ankle deformities as well as the education of orthopedic surgeons worldwide is clear. Goal is to continue with surgery, teaching, and education, but to focus this in countries where they perceived the need to be greatest.

1400+

Surgical Operations

500+

Surgeons Trained Annually

250+

Volunteer Faculty

24+

Countries

The team includes 6 surgeons, two of whom are regional orthopedic leaders. During the visits, all the volunteer surgeons are responsible not only for patient care but also for the education of 50 orthopedic surgeons who attend the intense one-week program in order to maximize the potential for the future care of patients with similar deformities in their region.

Step2 walk India Organizing Team
